NetComm NB6Plus4W_Rev2_AU
Firmware Upgrade Instructions

1. Using your web browser (Internet Explorer, Mozilla Firefox, etc.), enter the IP address of your NetComm router into the Address Bar.
   The default address is http://192.168.1.1.

2. Log on using your administrative user name and password.
   The default is **admin** and **admin**.

3. Click on **Management at** the top, and then **Update Firmware** on the left.

   Use the **Browse** button to locate the firmware image file.

4. After selecting the firmware image file named ***cfe-nb6plus4w_rev2-au-v424p_a2pb025c_d22i***, click **Update Firmware,** and wait for the process to complete. The upgrade process may take approximately 1-2 minutes, the modem will automatically reboot after firmware upgrade. You will expected '*Power*', '*WLAN*' and your connected '*Ethernet*' port's LED light = **green** after firmware upgrade completed if the modem is not connected to an active ISP service line.

NOTE: DO NOT DISCONNECT YOUR PC FROM THE MODEM or POWER THE NB6PLUS4W_REV2 OFF DURING FIRMWARE UPGRADE.

5. Your NB6Plus4W REV2 firmware upgrade is now completed. The version number is now shown on the button left hand side of the web management interface.
